E-Motive Launches Evolution Range of Next Generation Elevator Displays

E-Motive's new Evolution[©] range of TFT multi-media elevator displays with ultra-slim LCD screens provide building owners with total control over the information shown to elevator passengers. They also provide operators the ability to edit the contents of the displays to their specific requirements.

To download a high resolution version of the above image, please click on the following link, or paste it into your web browser: <http://halmapr.com/emotive/evolution1.jpg> (725KB)

The displays can be programmed for basic elevator information such as floor number and elevator direction as well as welcome messages, floor directories, advertisements, live TV feeds, video clips and live stock and share information.

The Evolution©'s ultra-slim advanced LCD screens are available in a range of sizes (7.1", 10.4", 15", 21" up to 42") with portrait or landscape view orientation.

About E-Motive

With its head office in Singapore and regional offices in India, China, the USA and Dubai, E-Motive, a subsidiary of Halma p.l.c., is a world leader in elevator display and monitoring technology. The company designs and manufactures the software, electronics and hardware for a wide selection of displays and monitoring systems used in high profile installations worldwide. E-Motive's Indian office comes under the jurisdiction of TL Jones India Pvt. Ltd., another Halma subsidiary and a world-leading manufacturer of elevator safety equipment.
