

# Kent Grand PLUS – makes life Healthy!!!

*“Get quality purified water right in your home!”*

Some people used to think that water purifier's are a modern day fad, that's they are simply for the show. On the contrary, a water purifier in your kitchen is the second best thing to keep your family healthy and physically fit. This is the best way to keep the unwelcome “guests – diseases” away from your life. Now days there are so many brands available in the market but amongst oodles of water purifier's brands it's really difficult to pick a particular brand. Amongst these brands KENT RO stands very tall.

Kent RO Systems limited, the pioneer in revolutionary Mineral RO technology and the winners of the best domestic purifier award, came up with a technology which will help in keeping you and your family disease free. **Kent Grand Plus** is a computer controlled stylish water purifier loaded with enhanced features.

**Kent Grand Plus** work to purify the water to the best possible levels. It not only purifies the water but also alters its taste to make it more drinkable keeping the minerals intact while purifying, adding on to the health quotient whereas the ordinary RO purifiers lose essential minerals while removing dissolved impurities.

These wonderful filters extract almost every contaminant even the dissolved impurities from water, like rust, heavy metals, salts and chemicals which are supposed to be the most toxic elements. Considered to be one of the best available water purifiers in the market, these wonderful water filters can be availed in assorted ranges. **Kent Grand+** are truly a boon for all those, who are not able to consume pure water. Due to its great qualities, people would definitely like to opt this technology.

Though there are no known ways for us to make water tastier apart from adding flavor to it, this water filter makes this life sustaining drink tasty while purifying it. This water purifier contains 8 liters of purified water storage capacity makes purified water available on demand even in the absence of electricity / water supply. Occupying the least amount of space in the kitchen, these beautifully designed water purifiers look great in modern kitchens.

According to **Mr. Mahesh Gupta, Chairman, Kent RO Systems Ltd., said that,**“ Water Purifier is the most important gadget for Kitchen as looking at health aspects almost every household suffers from the disease caused due to drinking water. We should always choose a water purifier that's trendy looking according to your kitchen but should be effective in cleaning the impurities leaving behind the essential minerals needed by our body. “

Our latest innovation **Kent Grand Plus** incorporates a microprocessor controller that enhances the control and purification by Mineral RO process and computer controlled operation with Filter Change Alarm and UV Fail Alarm ensures purity during service period. One should choose a water purifier system that not only kills bacteria and viruses but also removes dissolved impurities and maintains essential minerals on a long service life to provide healthy water.” Added Mr Gupta

He added that, “successful acceptance of water purifiers and the demand for the product by the masses is the result that we are coming up with these kinds of health products.”

With the ability to make water completely pure, these filters have become must-haves in almost every kitchen and family. Hence, the market is full of different sorts of water filters. But if you are looking for a perfect filter to suit your needs in the best way, Kent RO presents the best deal for you.
